SUYASH ANIL BABAD

Shree Sai Square Appart, Rane Nagar, Nashik, Maharashtra
suyashbabad09@gmail.com

SUMMARY

Curious and motivated BCA student with hands-on Python experience and a growing interest in machine learning. Skilled in data analysis using NumPy and Pandas, with projects hosted on GitHub. Seeking an opportunity to learn and grow toward a future role as an ML engineer or AI researcher.

WORK EXPERIENCE

Fresher

PROJECTS

1. AI Chatbot using OpenAI API

Built a chatbot using Python and OpenAI API to generate AI-based responses from user input. Enabled real-time, interactive conversation via command line.

2. File Organizer Script

Created a Python tool to automatically organize files in a directory based on file type, improving file management and workflow efficiency.

3. Titanic Dataset – EDA

Analyzed survival rates by age, gender, and class. Handled missing data and visualized patterns using Seaborn and Matplotlib.

4. IPL Dataset – EDA

Explored player and team performance trends using visual analysis. Highlighted key stats like runs, strike rate, and win patterns across seasons.

- **LinkedIn Profile**: https://www.linkedin.com/in/suyash-anil-babad-ab367a30b/

EDUCATION

Bachleor in Computer Application — **Aug 2024 - Ongoing**

- Ajeenkya D Y Patil University Pune. (1st Year SGPA: **9.5**)

Primary and Secondary Education — **June 2022 - June 2024**

- HSC: **72 %** (HPT Arts and RYK Science Jr college) Science PCM
- SSC: **90%** (SNEMS School, Ghoti, Nashik)

ADDITIONAL INFORMATION

- **Technical Skills: Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, Java (OOP), Git, Exploratory Data Analysis (EDA)**
- **Languages: English, Hindi, Marathi**
- **Certifications/Courses: Udemy (Data Science Boot Camp), Career essential in gen AI by Microsoft**
- **Awards/Activities: Uploaded multiple personal projects and EDA analyses to GitHub; actively exploring AI/ML concepts through self-driven learning and hands-on practice**
